Summary

Result-drive Full Stack Developer with nearly 3 years of experience in designing, developing, and maintaining web applications. Proficient in frontend and backend technologies, with expertise in frameworks, databases, and cloud services. Passionate about writing clean, scalable code and optimizing performance. Strong problem-solving skills and a collaborative approach to delivering high-quality software solutions.

Technical Skills

- **Frontend:** HTML, CSS, Bootstrap, JavaScript/TypeScript, Angular, Vue.js
- **Backend:** Node.js, Typescript, Express.js, Socket.io, REST APIs
- **Databases:** MongoDB, MySQL with Sequelize
- **DevOps & Cloud:** AWS EC2, S3, Nginx (Reverse Proxies & Load Balancer)
- **Tools:** Git, Postman, VS Code

Experience

1. WisewayTec:

Full Stack Developer   **Mohali,Punjab | April 2024 – January 2025**

- **EvolveAir:** Developer an education system with an admin panel for course creation and video uploads. Implemented secure payment processing using Stripe via Rozarpay. Utilized Vue.js and Node.js for frontend and backend development.

- **GDCC Exchange:** Built an exchange platform allowing admin to create custom coins and integrate Binance coins. Implemented two-factor authentication using email and authenticator code. Integrated real-time data updates using Socket.io and visualized trade with TradingView widgets.

- **Pantrade:** Contributed as a backend developer to develop a trading bot capable of buying, selling, and analysing market views. Implemented deposit and withdrawal functionalities using node.js.

- **Raxx Staking:** Developer a wallet connectivity module integrating MetaMask for real-time deposit and withdrawal functionalities, ensuring seamless blockchain interactions.

- **Crash Game:** Created a real-time multiplayer crash game clone using Vue.js and Node.js. Integrated WebSocket technology for seamless communication and real-time game play. Implemented robust game logic, including random number generation for crash multipliers and fair play validation.

2. Relinns Technologies

MEAN Stack Developer   **Mohali, Punjab | October 2022- April 2024**

- **BotPenguin:** Enhanced lead generation processes by creating backend integrations with Google Contacts, Zendesk, Close CRM, Freshworks, and more using Node.js

- **Caterpillar**: Collaborated with Deloitte on the Caterpillar project, contributing to client-based development within the MEAN stack frameworks.

- **Authentic Drilling:** Led end-to end development for a US-based client, managing both frontend and backend aspects using angular and Node.js.

3. Relinns Technologies

Software Developer Intern   **Mohali, Punjab | March 2022 – September 2022**

- Collaborated closely with a seasoned team lead to develop proficiency in Angular and Node.js.
- Played a pivot role in the creation of the BotPenguin chatbot application, managing various modules spanning frontend and backend functionalities.
- Integrated Close CRM and Google Login within BotPenguin to streamline lead generation processes.

Education

- **Master of Computer Application (MCA)**
  Himachal Pradesh Technical University, Hamirpur | 2022| CGPA: 8.1
- **Bachelor of Computer Application (BCA)**
  Govt. PG. College Dhaliara, Kangra, Himachal Pradesh | 2019 | CGPA: 8.38
